

JOHNSON FARMS

Japanese Holly Collection

'Compacta'- Dense, rigid, evergreen shrub with charming round appearance. Little pruning is necessary to maintain globular form. The foliage holds its glossy green color all year. Female plants produce black fruit that hangs on throughout winter.

'Sky Pencil'- Sky Pencil' is a densely branched evergreen shrub that has a tall columnar growth habit and get 6-10' tall and only 2-3' wide at maturity. 'Sky Pencil' is a female selection producing small white flowers in the spring and inconspicuous berries in the fall.

'Green Luster' -An easy to grow evergreen shrub covered with lustrous dark green leaves. Excellent for textural effect in foundation plantings. Bears showy black berries in the fall.

'Steeds'- A densely branched evergreen shrub with an interesting pyramidal form. Lustrous dark green foliage adds color to the landscape year round. Black berries last all winter on female plants.

'Helleri'- A very dense and dwarf form that reaches heights of 3' with an equal spread. Easy to grow and adapts to most conditions.

'Hoogendorn'- A low growing, densely branched, compact evergreen shrub with handsome, flattened, dark green foliage. An elegant choice for use in shrub borders, as a low hedge or in mass plantings.

'Chesapeake'- Has white flowers, with narrow light green foliage. Up to 8' tall.
